* The sum of \$650.14 was given as the balance in the last report, instead of \$751.70. The mistake was merely in transcribing for the printer, as the financial statement on the following page showed. The original account was correct.

Volumes and pamphlets have also been received from other individuals and from various associations, libraries, town and city governments.

No works of rare and special value have been procured, while a larger than the usual number of the current issues, of practical utility and appropriate to the library, have been added; also an unusual number of maps in the form of atlases, mainly representing on a large scale the topography of the municipalities of New England,—the number to be still further increased.

PRESENT MEANS.

The means now at the disposal of the trustees, for the purchase and transportation of books, and during the several months that must elapse till the next annual appropriation shall be available, are the balance on hand, \$269.07, and an unexpended balance of the last annual appropriation, not yet drawn from the treasury, of \$306.92, amounting to \$575.99. This sum will be nearly exhausted by the cost of books already ordered.

NEW CATALOGUE.

In the last annual report was presented the importance of beginning, at an early period, the preparation of a new catalogue of the library. The urgent reasons there stated were laid before the library committee of the legislature at its last session. The result was a unanimous report in favor of a Resolve, granting \$600 for the additional and extra labor required and \$300 for incidental expenses, which was passed without opposition. Of the amount appropriated for labor, only the sum of \$79 has been expended, for an additional assistant from May 1 to September 30, or to the close of the library year, a period of five months, and the further sum of \$70 for increased compensation to the regular assistants. As yet, nothing has been drawn from the allowance for incidental expenses, though some expense has been incurred which will appear in our next annual account.

The work of preparing copy for the printer is proceeding with great care and thoroughness, in accordance with the most approved methods, as rapidly as could be reasonably expected from the limited amount of service employed and as consistent with the entire accuracy required. It will advance, probably, with increasing rapidity as it proceeds; but it has not been expected that it will be completed by our present force within a less period than two years from its beginning.

While the special labor bestowed upon the preparation of a new catalogue has been performed mostly by the regular assistants, and chiefly by the very competent and faithful assistant who has had particular charge of the department of cataloguing books, yet other wants and interests of the library have in no respect been overlooked or neglected. More than the ordinary amount of attention has been given to perfecting our serial publications and to completing deficient sets of works, by supplying the wanting pamphlets or volumes so far as practicable and necessary to perfect the series.

EXCHANGES.

State publications have been received during the year, through inter-state exchanges, from every State and Territory of the United States except Oregon, New Mexico, Utah, Dakota and Idaho. This favorable result has been secured by a vigilant care and timely correspondence, and by the valuable return made from our state department, in gratuitous distribution of our state documents, laws and law reports, which strongly tempt States receiving or desiring to receive them, to a reciprocity of favors. That only one State and four Territories of the whole number—only *five* of the *forty-eight* which constitute the entire national domain except Alaska—should fail to reciprocate within the period of one year in an exchange of state papers, may well be considered, if not a remarkable, yet a most encouraging and desirable result. It illustrates the advantage of an established and uniform agency, like that of a state library properly managed, aided by state patronage in the form of valuable publications,

and offering a mutual benefit on the simple and easy terms of an exchange, as a means above all others of obtaining for the present time, and for coming centuries, the public and regular issues of all our state organizations, and especially the first and early legislation of our new States and recently organized Territories.

Respectfully submitted.

JOSEPH WHITE, *Librarian.*

STATE LIBRARY, Oct. 13, 1874.
